Process insights in record time with Infor Process Mining

A complete solution that empowers organizations with business process analytics, uncovering actionable insights to optimize business processes, enhance decision-making, and drive transformative efficiency gains across your ERP processes and procedures.

Built for industry-specific processes

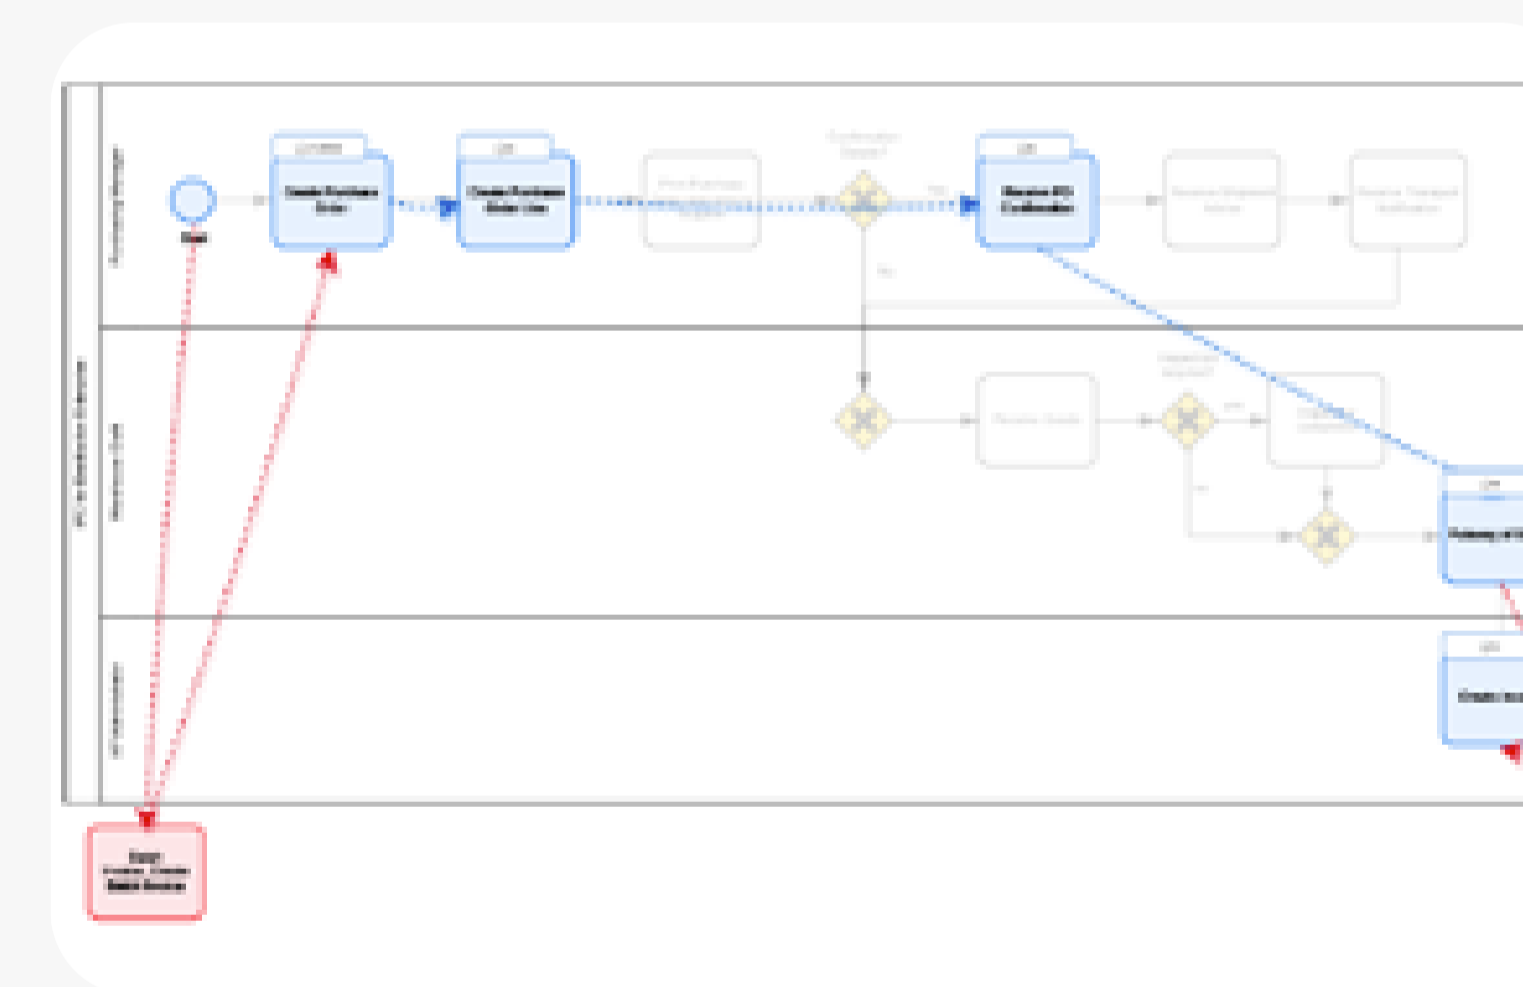

Infor® Process Mining transforms operational insights by utilizing advanced analytics to reveal hidden patterns and inefficiencies within your organizational processes. This powerful tool enables businesses to streamline operations, optimize resource allocation, and reduce costs effectively. With actionable insights into business processes, organization leaders can make informed decisions that drive continuous improvements and sustainable growth.

Transform your Infor CloudSuite capabilities with Infor Process Mining, delivering rapid, exclusive insights for a future-ready business

Harness process discovery

Gain deep insights into your operational processes and explore how they are executed with precision

Uncover non-conforming variants

Tackle process inefficiencies by identifying non-conforming variants that diverge from your standard process model

Identify critical bottlenecks

Streamline operations by pinpointing time-consuming activities in your processes

Understand process accuracy, address bottlenecks, and implement effective workarounds to fully maximize the potential of your Infor CloudSuite with Infor Process Mining:

- Localized content of your processes
- Flexible data load options
- A variety of widgets to analyze process data
- Actionable strategies extracted from filtered data
- Conformance analysis for execution versus expectation
- Industry benchmark for accurate cycle times

Infor Process Mining offers unmatched visibility into process execution, delivering precise insights into process flows and operational efficiencies tailored to your industry needs.

Fast-track data integration with Infor CloudSuite

Seamlessly load ERP data into the mining database and customize as needed

Flexible usage-based process insights

Enjoy the flexibility to discover insights in any part of your business with simple and transparent consumption licensing

Immediate process insights within days

Business can focus directly on analysis, reducing manual documentation time and effort

Drive actions and empower operations with Infor CloudSuite

Take swift actions on identified processes through integrated Infor enterprise automation solutions

Revitalize your business with Infor's data-driven solutions

Xibis, Your Partner for Infor CloudSuite in the Manufacturing Industry

Since 1989, Xibis has been the leading Infor partner for the manufacturing industry in the Benelux. We add proven value to your investment in Infor CloudSuite Industrial Enterprise (ERP LN) through our expertise in implementation, optimization, managed services, and (cloud) migrations. In addition, we support companies with smart solutions in the areas of CPQ, PLM, Factory Track, Portals, Velocity Suite, and Integrations.
