Unleash hyper productivity with Infor GenAI

Designed for the unique needs of your industry, Infor GenAI built directly in Infor CloudSuite is your catalyst for modern enterprise innovation and intelligence with generative AI.

Reimagine efficiency at scale

Eliminate tedious tasks, giving your teams a seamless user experience through smart widgets and natural conversation.

Turn your data into unlimited potential

Grounded in all your industry data, powered by market-leading LLMs, turn scattered data into new innovations and insights.

Elevate the spaces you're familiar with

With generative AI built directly in Infor CloudSuite, have the peace of mind of enterprise security and data privacy tailored to every user.

Get answers instantly across your industry data with Infor GenAI Assistant

Infor GenAI Assistant turns any conversation into the business clarity you need to manage, track, and analyze performance across your products, projects, and people.

Streamline all your data, ask in one place

Explore all your data in one place, connecting your Infor CloudSuite and documentation together for a complete view of your business to inform decisions quickly.

Engage in context-driven answers and actions

Have deep, contextual conversations as you refine, clarify, and pivot — ensuring precise, actionable responses with automated tasks handled for you.

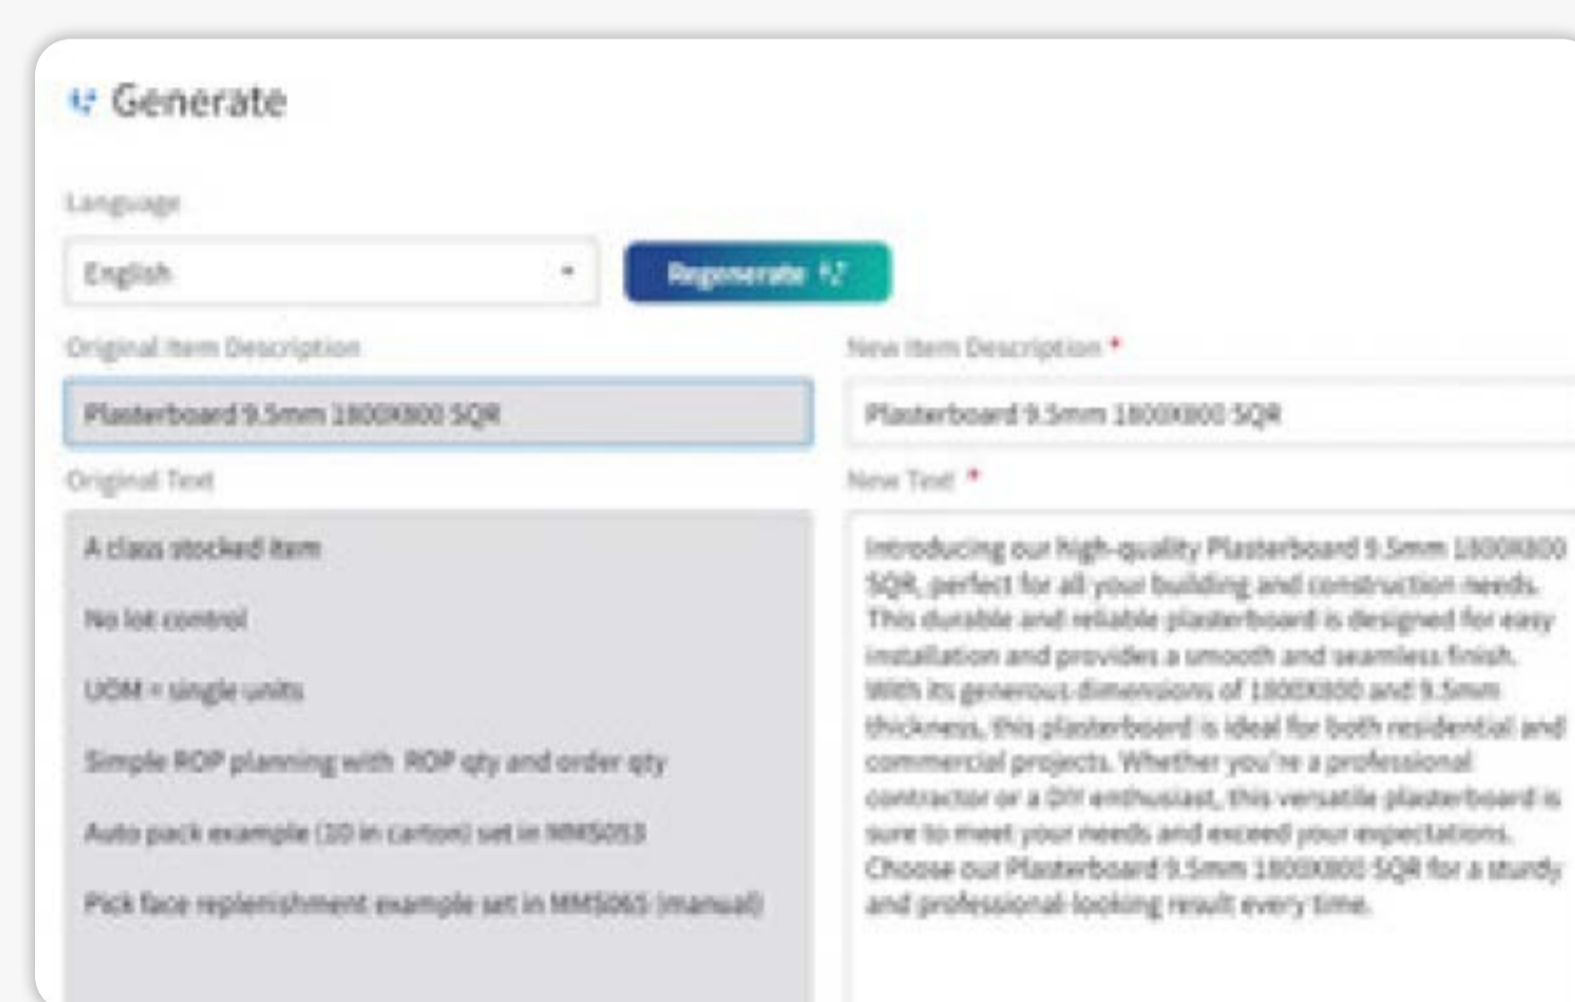

Find your focus with GenAI in a trusted flow of work

Reduce distractions with a trusted guide directly in Infor CloudSuite so you can have AI-driven productivity with the robust security and data privacy that you're used to.

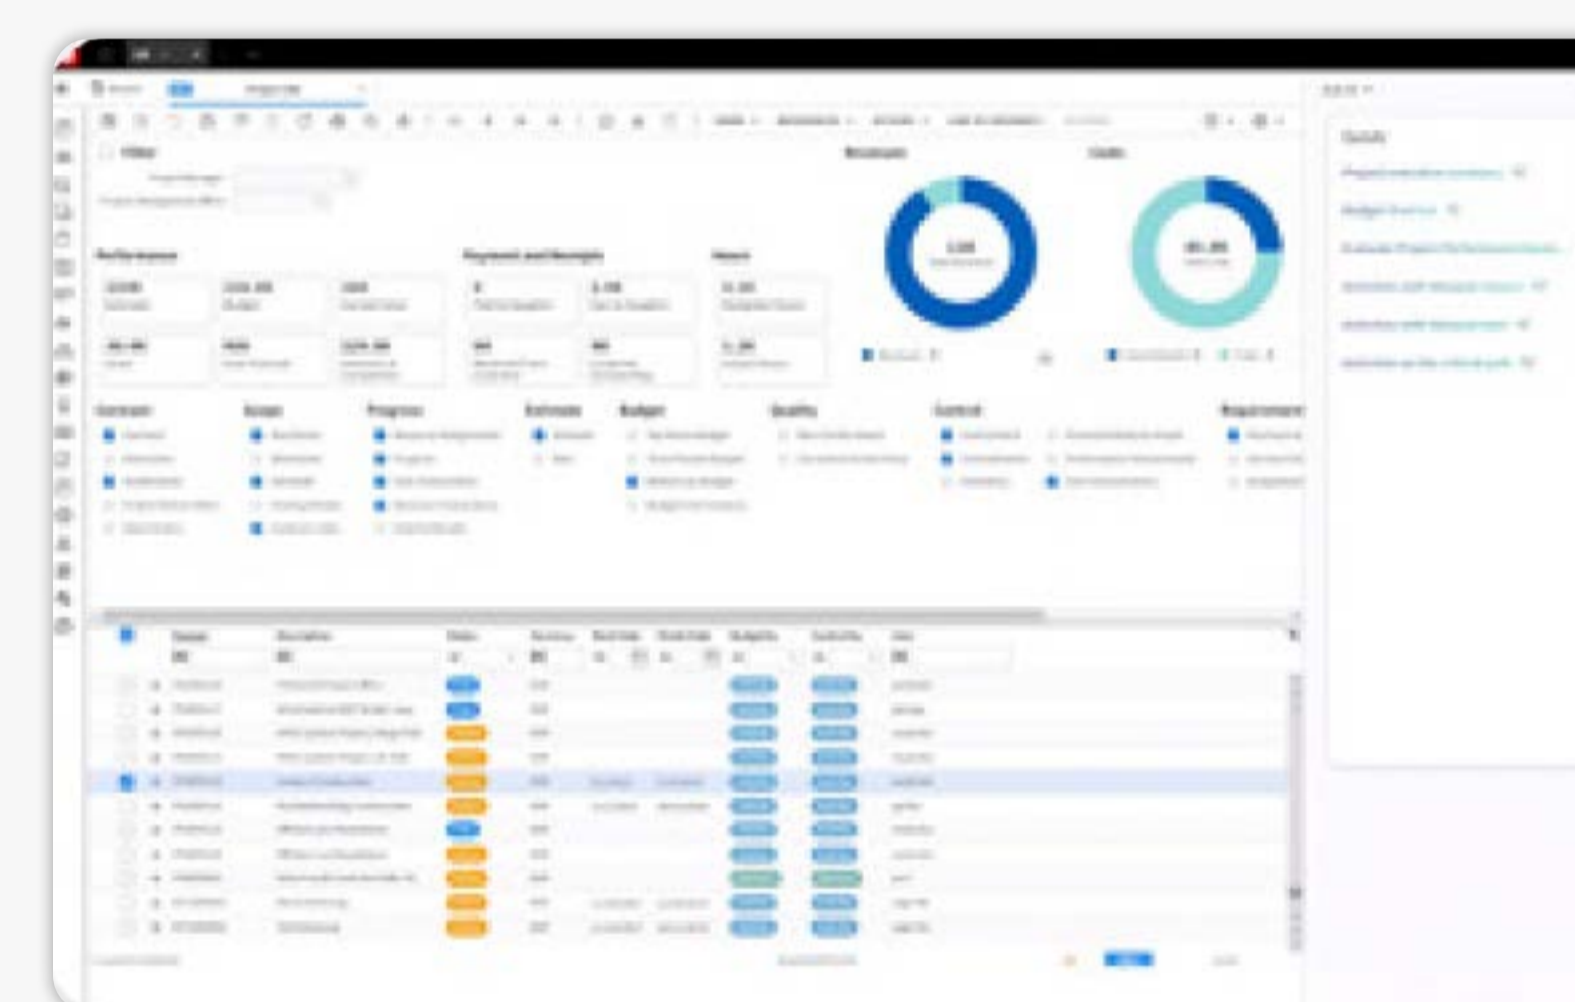

Write, summarize, and analyze at scale with Infor GenAI Embedded Experiences

Infor GenAI Embedded Experiences are built directly in your workflows to elevate day-to-day tasks with AI-driven productivity across procurement, project management, operations, financials, sales and HR with generative AI.

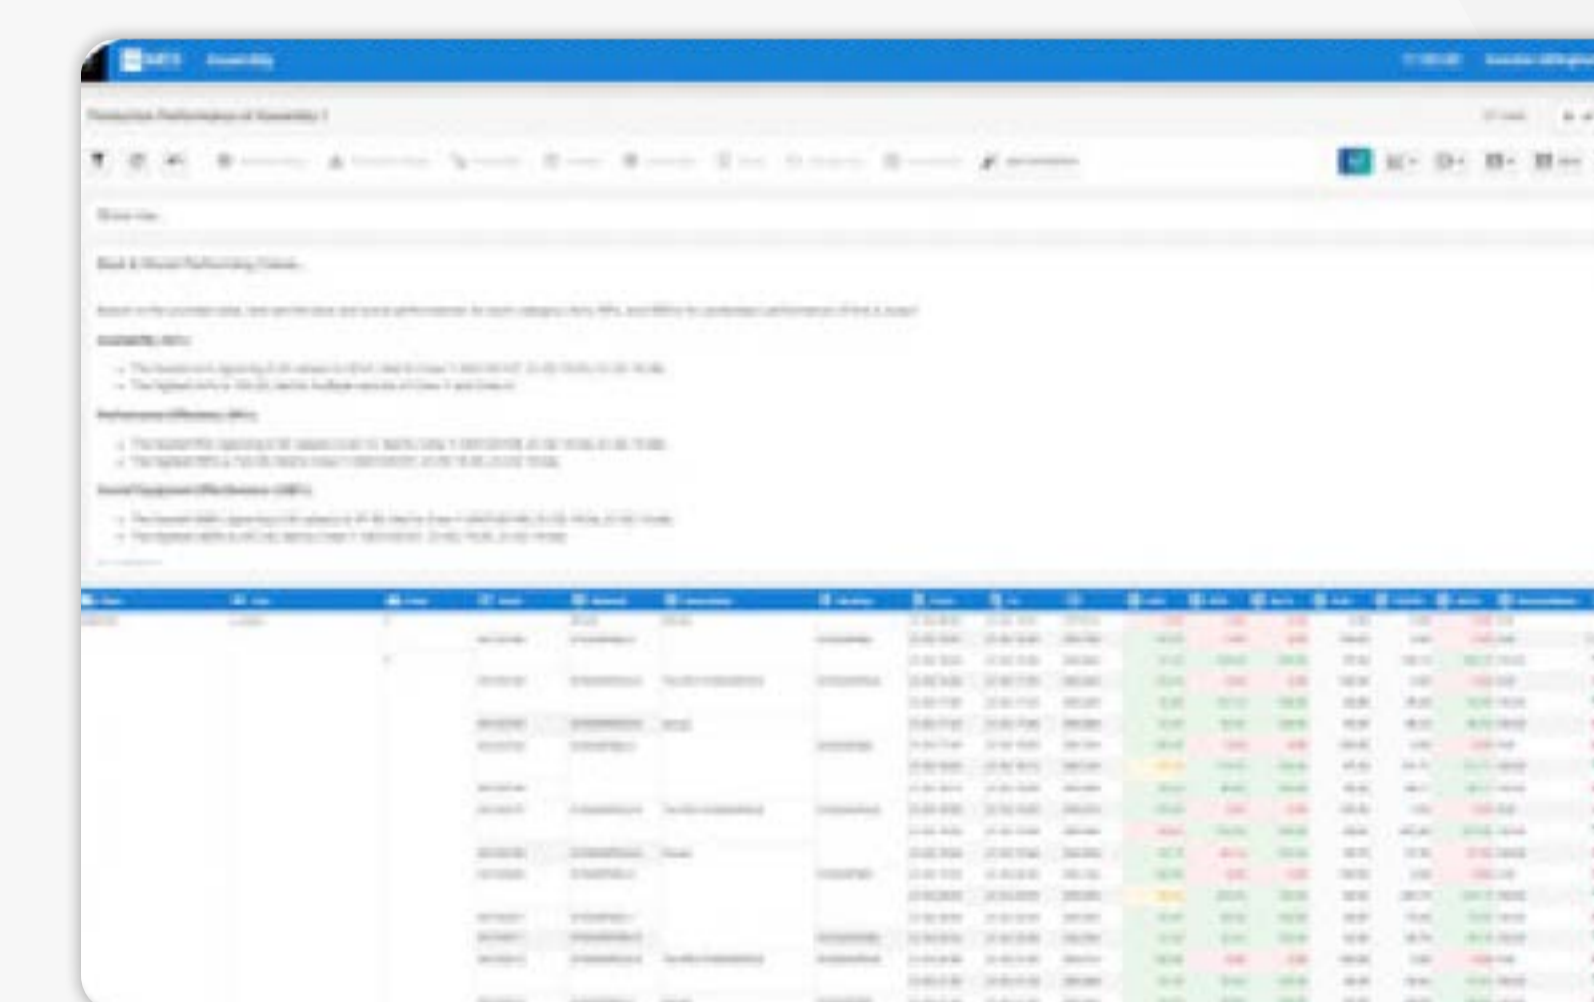

Instantly make complex, repetitive tasks easy

Turn hours of writing, re-writing, and localizing into minutes with one-click efficiencies. Spend time on higher value work that needs the ideas only you can bring.

Know the best course of action with trusted insights

Let AI do the heavy lifting, generating summarized insights around project and production performance, budget overruns, contract comparisons, and more.

Discover new ways of working in existing workflows

Embedded directly in Infor CloudSuite, see how work gets done faster and more accurately — all in the secure spaces you're familiar with.

Your data is protected, always. Powered by Infor OS Platform, enabled by Amazon Web Services

Infor CloudSuites embedded with Infor GenAI are built on Infor OS Platform with infrastructure services from Amazon Web Services® (AWS®) to ensure trusted scalability, performance, security, and compliance.

As a proven foundation for innovation and intelligence, Infor OS Platform helps you realize business outcomes faster.

Modern, cloud ERP
meets generative AI to
unleash hyper productivity.
Explore possibilities with Infor

Xibis, Your Partner for Infor CloudSuite in the Manufacturing Industry

Since 1989, Xibis has been the leading Infor partner for the manufacturing industry in the Benelux. We add proven value to your investment in Infor CloudSuite Industrial Enterprise (ERP LN) through our expertise in implementation, optimization, managed services, and (cloud) migrations. In addition, we support companies with smart solutions in the areas of CPQ, PLM, Factory Track, Portals, Velocity Suite, and Integrations.
